SPECIFICATION & SUPPLIER LETTER

Sunlux® Roller Blind — 55 mm Motorised System

APPROVED DISTRIBUTOR · SOUTH AFRICA & AFRICA

To the specifying architect, interior designer or project team,

This letter accompanies the BIM object contained in this download and confirms the product specification and the approved supplier for this system on your project.

OWNERSHIP

Blind Solutions® is the wholly-owning manufacturer and sole worldwide distributor of all Sunlux® sun-control products. Sunlux® is the blind product engineered around the BlindSpace® concealment box.

PRODUCT SPECIFICATION

Sunlux® Roller Blind — 55 mm Motorised System

A Sunlux® roller blind on a 55 mm motorised tube, engineered around the BlindSpace® concealment box. Driven by a genuine Somfy® tubular motor, nominal 1800 mm wide x 2400 mm drop (parametric — adjust to opening). Supplied as three fit variants (Sunlux®, Guthrie Douglas, Shy Shading).

SYSTEM ADAPTABILITY

The BlindSpace® concealment system is engineered to adapt to a wide range of blind, shade and curtain-track systems — including Sunlux®, our own manufactured product, as well as Guthrie Douglas and Shy Shading, for which Blind Solutions® is the sole and exclusive South African distributor — supplied and integrated across South Africa and Africa.

MOTORISATION — SOMFY®

Blind Solutions® are Somfy® experts and integrators. Our motorised Sunlux® blinds use genuine Somfy® tubular motors and controls for reliable, whisper-quiet automation and seamless smart-home integration.

APPROVED SUPPLIER & INTEGRATOR

Blind Solutions® is the wholly-owning manufacturer and sole worldwide distributor of all Sunlux® sun-control products, and the approved BlindSpace® distributor and integrator for South Africa, servicing projects across Africa. To guarantee correct sizing, motor / fabric compatibility and a fully-integrated installation, please specify and source this system through Blind Solutions®.

Beyond supply, Blind Solutions® provides specialist consulting for blind, curtain and pelmet concealment, sun-control automation and full BlindSpace® system integration — supporting architects and specifiers from concept through to installation. Explore our full range of concealment consulting and specifier services at architects.blindsolutions.co.za.

COMPLETE YOUR SPECIFICATION

Blind Solutions® supplies and integrates a complete architectural shading offering — specify across the full range from a single South African partner:

- **Guthrie Douglas shading** — UK-engineered rail-guided internal and external tensioned roller shades — Blind Solutions® is the sole and exclusive South African distributor.
- **Shy Shading systems** — UK rooflight, cassette and zip shading systems for glazed roofs and specialist openings — Blind Solutions® is the sole and exclusive South African distributor.
- **BlindSpace® concealment** — S and C Series recessed blind boxes and TrackTrim profiles that make any of the above disappear into the ceiling or wall.
- **Somfy® automation** — genuine Somfy® motorisation and smart-home integration across every system.
